living & learning

GROWING BETTER LIVES

The 'Living Learning Experience'

Come and live in an 'enabling environment' for three days,
in a beautiful organic farm study centre in Kent.
Learn about the power of group process in a safe and enjoyable way
Experience what goes into making any group or working environment genuinely therapeutic
...and find time to relax, be playful, have fun and recharge your batteries!

This is a 3-day intensive experiential residential training course. It takes place entirely in groups, and is run as a structured programme of activities in a democratic and non-hierarchical framework. Participants explore the experience of working closely with others, and learn how to use relationships effectively in clinical practice.

The course is suitable for all levels of staff. Although it is designed primarily for clinicians, to understand the importance of therapeutic environments, it is also useful for those working in administrative, managerial, commissioning and policy roles.

What does it cost?

The full individual fee for 2017 is £450, including all accommodation and meals
Discounts can be negotiated for several participants from one organisation or for regular bookings.
Bursaries may be available in special circumstances.

Now booking for:
Friday 16 - Sunday 18 June 2017
Tuesday 14 - Thursday 16 November 2017
